Immersed in a botanical garden, between secular olive trees and rare plants, is born this enchanting **4 stars beach hotel village**.

Green is not just a feast for the eyes, but becomes a valuable ally for body care and to achieve relaxation. Marina di Camerota, located in one of the most beautiful spots of the **Cilento coast**, the hotel is only a few meters away from the sea. This Botanical Garden – in 2016 – became the set of some scenes of the film **“Wonder Woman”**, directed by Patty Jenkins.

The beach of the village is equipped with umbrellas and sun loungers, **200/600 m from the bungalows**, it’s made of sand and gravel, private and equipped with direct access, within easy walking distance. On the beach, there is a beach volleyball court, the lifeguards are available for renting sailboats, dinghies, windsurfers, pedal boats and canoes. The direction of the **Aquarium of Genoa**, in collaboration with the Village, organizes free courses of information on the marine environment and the Mediterranean maquis, including trips out at sea, snorkeling and hiking , all provided by experts from the Aquarium.

The **restaurant** consists of three halls and offers a splendid view of the sea. Breakfast is served in the two terraces of the old manor house, completely surrounded by greenery. Tradition and technology come together in a perfect blend of past and present. Products of the highest quality, such as buffalo milk mozzarella and ricotta cheese, fresh pasta, vegetables of all kinds, extra virgin olive oil with a delicate taste, the result of centuries-old olive trees of the village, are daily used by our chef, to rediscover the **flavors of the Mediterranean tradition**.

Close to the restaurant, with a bar, is the **modern swimming pool with adjoining hot tub**. The solarium is set in a large walkable lawn nearby. In the evening, the atmosphere becomes magical thanks to the play of light and colors of the optical fibers. The WiFi coverage is available throughout the pool area. As evidence of this successful combination, in the pool area you’ll find two mobile sculptures by Japanese artist Susumu Shingu, who worked with Renzo Piano during the construction of the Old Port of Genoa.
