

**Etnachic** is a stylish villa placed at Trecastagni, a small village on the slopes of **Etna Volcano**, which offers worldliness, amusement and joy, but also great tranquillity, solitude and contemplation.

Villa Etnachic is located in an ideal position to join the **most famous** naturalistic and cultural **attractions of Eastern Sicily**, easy to join thanks to the main Motorway, in a perfect balance between the mountain and the sea.

Villa Etnachic has been recently renovated by its owner - an architect who, by using the intense white of the walls and the warmth of the terracotta tiles and melted stones, perfectly realised its **personal concept of sustainability**. The whole property is characterized by an atmosphere of elegance and privacy, with attentive care to details.

The villa is surrounded by a **garden developed in two levels**. At the first one there's the access to the parking area and the keeper's apartment facing to a green area. At the second one there's the entrance into the villa.

The house welcome guests in a **living-room very bright and spacious**, with two large sofas, rocking chair, little table, a piano, smart-TV and dining area with six-seats table and sideboard.

The lighting living-room is enriched by a library at guests' disposal. All the **three bright bedrooms** are close to the private garden, with a large window of a balcony, en-suite bathroom, air conditioning and central heating system.

**Free wi-fi** available inside the whole villa. It sleeps up to **8 people**.

From the airport the highway is E45, closest exit "Paesi Etnei"
